OBSTRUCTIVE SLEEP APNEA IN THE ADULT PATIENT: PUTTING THE PRACTICE RECOMMENDATION INTO PRACTICE
PREVENTION OF UNWANTED SEDATION: PUTTING THE PRACTICE RECOMMENDATION INTO PRACTICE
Greetings, perianesthesia colleagues!

The ASPAN seminar series for winter-spring 2017 will soon commence! Our ASPAN ANCC-COA Accredited Provider Unit consistently provides excellent information through up-to-date seminars, webinar modules, and live webcasts.

The profession of perianesthesia nursing, in which we have all chosen to work, is exceptional and unique. Our practice is always evolving; the way we learn is continually changing. ASPAN provides a variety of ways to obtain the continuing education needed to practice in the fast-paced environment of perianesthesia nursing. To better suit your busy schedule, ASPAN offers flexibility to meet your educational needs. We offer a wide range of educational offerings to address the interests of all perianesthesia nurses. Our speakers are nationally recognized, highly qualified, and active members of ASPAN. Please know that ASPAN and our ANCC-COA Accredited Provider Unit are always exploring new seminar topics of interest to all perianesthesia nurses in different work settings. We are excited to now offer two up-to-date, two-hour webcasts, developed as a result of members requesting shorter education sessions.

Energize your practice by taking advantage of the wonderful programs ASPAN has to offer. I encourage you to attend these seminars and view our live webcasts. Take advantage of the early bird registrations and have fun networking while learning. Whether you are new to perianesthesia nursing or an expert, whether you like face-to-face or virtual seminars, we know you will find what you need in ASPAN’s seminar series.

Current ASPAN programs selected for this season are on the pages that follow.

Sincerely,

Katrina Bickerstaff BSN RN CPAN CAPA
ASPN President 2016-2017
